## 'Summoned by Bells'

A light-hearted entertainment

Welcoming the Turret Bell back to the Fort

Thursday September 1st 7.30pm

Bells have always played a central role in worship, in communication and of course in our musical and artistic history as Michael Lunts explores in this musical evening devoted to the subject, in particular to the inspiration that artists and writers down the centuries have drawn from the sound of bells. Bells have also long been rung to mark celebrations and there will also be a celebration or two at the heart of this occasion, not least the return of the newly-restored Turret Bell to the Fort. So come along and be 'summoned by bells' as we 'ring the changes' at Fort Belan!
